Wabag Provincial Hospital

Health

Project Title
Wabag Provincial Hospital

Location
Wabag, Enga, PNG

Client
Shepley Bulfinch

Project Type
Hospital

Year Completed
On going

Project Description

The new Enga Provincial Hospital is a landmark development at Wabag. This iconic complex of buildings will greatly enhance the delivery of health services in the region.

The hospital consists of predominantly single with some two storey structures that blend with the topography and interact with the extensive landscaping.

Kramer Ausenco is providing comprehensive engineering design and documentation services through the whole suite of engineering disciplines.
