Hospitality and Leisure

Project Title

Denarau Island Resort

Location

Nadi, Fiji

Client

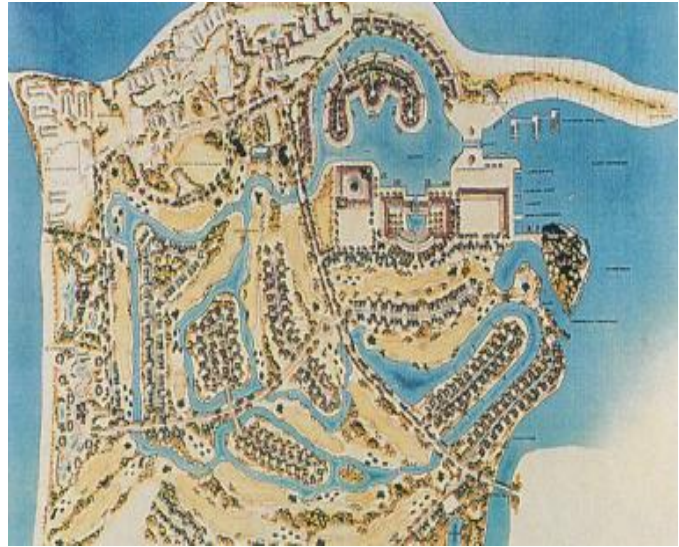

Kumagai Gumi Co. Ltd

Project Type

Resort Development

Year Completed

1992

Project Description

Resort development including marina, housing estate, canal, hotel, accommodation, and golf course. The site is located on a saline swamp. Land reclamation using a saline fill was required over an area of 80 hectares.

The project consisted of topographic survey and design of all site works including marine, tidal canals, land fill and water, sewerage and road infrastructure. Seconded staff was also involved with the turnkey operation on the construction management of the works. Contract packaging and preparation of bills of quantities and construction cost estimates was also undertaken.
