

## Factsheet

# Goroka Water Supply Project

Public Sector & Urban Development

---

**Project Title**

Goroka Water Supply Project

---

**Location**

Eastern Highlands, PNG

---

**Client**

JICA/PCI

---

**Project Type**

Geotechnical Investigation

---

**Year Completed**

2000

---

### Project Description

Kramer Ausenco was commissioned to provide geotechnical inputs in the supply of clean fresh water to the urban centres of the Eastern Highlands Province in Papua New Guinea. This project was initiated to develop a new water purification plant. Topographic survey and geological investigation was carried out in the area. We ensure that our work and feedback meets international standards.

### Project Role

- Structural Engineers
- Civil Engineers
- Geologists
- Supervising Technicians
