

Factsheet

Vanuatu Police HQ Building

Public Sector and Urban Development

Project Title

Vanuatu Police HQ Building

Location

Port Vila, Vanuatu

Client

Australian Defence Force

Project Type

Institutional

Year Completed

1999

Project Description

The two storey Vanuatu Police Headquarters Building was funded by the Australian Government through aid from the Australian Defence Force and houses the Vanuatu Police Senior Management and Administrative functions.

In addition the facility houses vital Communications, Achieving, Training, Intelligence, Disaster Response, and Immigration Enforcement functions. The building has been designed as a post disaster structure to resist earthquakes and cyclones. Designed and built to Australian Standards the facility also is designed to account for humid tropical conditions taking into account of expensive electrical supply services charges.

Total Floor Area

1128 sqm
